

PRODUCT: *Love my Health* is designed to help us uncover many useful information about ourselves; about our nutrition, wellness and exercise needs, something that we can act on everyday! Our test creates your very own *owner's manual* in an easy to understand personalized web-based interactive report. Information provided includes; Diet, Sensitivities, Specific Nutrient Needs, Physical Fitness, Mental Well-being, Detoxification, Obesity Risk and Hormonal Health. Dr. Aaron Goldman, Chief Scientist at DNA Labs believes “*Love My Health* provides answers to simple questions that everyone has everyday and is designed to empower you to improve your own health with evidence-based recommendations”. Michael S. Kerzner, Chief Strategist remarks “Our DNA makes us who we are, now we have a much clearer idea who our DNA works and how it impacts on our health. Our test is a market leader covering 84 markers, 65 genes and 8 major categories which allows everyone to make decisions on their health based on their DNA”.

Test results are available on a web based secured portal in an easy to understand and interactive format. Retail price for test is \$ 360.00 Canadian, plus applicable taxes and shipping. Reports are available within 14 days from receipt of the genetic sample.

COMPANY: **DNALabs** is a Canadian owned genetics company that is committed to providing genetic testing solutions to help everyone know more about themselves and believing that if you're in medicine, healthcare and/or wellness then it's time to be better informed and prepared. Our company remains relentless, nimble and tenacious dedicated fully to the future of science's re-invention with a passion for developing useful, safe and easy to understand genetic testing products with a hallmark for excellence.

For Canadians, our lab is right here in Canada and for Americans our lab is in the USA and in both cases complies with all privacy, confidentiality, and regulatory laws for each jurisdiction
